"In the second quarter of 2021, our business continued to develop as we increased our efforts to further improve underage protection and product safety," said Ms. Ying (Kate) Wang, Co-founder, Chairperson of the Board of Directors and Chief Executive Officer of RLX Technology. "With our strategic focus on technology investment and brand building, we strive to make RELX a trusted brand for adult smokers with state-of-the-art products, industry-leading technologies and scientific advances. Going forward, we will further enhance investments in scientific research, strengthen our distribution and retail network, and improve our supply chain and production capabilities, to create more value for our users and shareholders alike."

#### **Second Quarter 2021 Unaudited Financial Results**

**Net revenues** increased by 6.0% to RMB2,541.4 million (US\$393.6 million) in the second quarter of 2021 from RMB2,398.5 million in the first quarter of 2021. The increase was primarily due to an increase in net revenues from sales to offline distributors, which was mainly attributable to the expansion of the Company's distribution and retail network. The Company believes that the slowdown in Q2 quarterly sequential revenue growth was primarily due to external factors including the negative publicity on the e-vapor industry in the latter half of the second quarter, coupled with the fact that the draft new rules announced on March 22, 2021 had not been formally confirmed and no new implementation details had been revealed, which had an adverse impact on our sales. Impacts from such external factors, along with recent extreme weather in several provinces of China and tightened social restrictions on a national level due to delta outbreaks, may persist after the second quarter and be difficult to predict.

**Gross profit** increased by 3.8% to RMB1,146.5 million (US\$177.6 million) in the second quarter of 2021 from RMB1,104.1 million in the first quarter of 2021.

Gross margin was 45.1% in the second quarter of 2021, compared to 46.0% in the first quarter of 2021.

**Operating expenses** were RMB167.2 million (US\$25.9 million) in the second quarter of 2021, representing a decrease of 86.3% from RMB1,216.0 million in the first quarter of 2021. The significant decrease in operating expenses was primarily due to the recognition of share-based compensation expenses of positive RMB172.5 million (US\$26.7 million), consisting of (i) share-based compensation expenses of positive RMB51.5 million (US\$8.0 million) recognized in selling expenses, (ii) share-based compensation expenses of positive RMB41.4 million (US\$6.4 million) recognized in general and administrative expenses, and (iii) share-based compensation expenses of positive RMB79.7 million (US\$12.3 million) recognized in research and development expenses. The significant fluctuations in share-based compensation expenses were primarily due to the changes in the fair value of the share incentive awards that the Company granted to its employees as affected by the significant fluctuations of the share price of the Company.

Selling expenses decreased by 56.8% to RMB126.0 million (US\$19.5 million) in the second quarter of 2021 from RMB291.5 million in the first quarter of 2021. The decrease was mainly driven by (i) the fluctuation of share-based compensation expenses, and (ii) a decrease in salaries and welfare benefits, partially offset by an increase in branding material expenses.

General and administrative expenses decreased by 93.5% to RMB46.1 million (US\$7.1 million) in the second quarter of 2021 from RMB712.8 million in the first quarter of 2021. The decrease was mainly driven by (i) the fluctuation of the share-based compensation expenses, and (ii) a decrease in salaries and welfare benefits, partially offset by an increase in legal and other consulting fees.

Research and development expenses decreased by 102.3% to positive RMB4.9 million (US\$0.8 million) in the second quarter of 2021 from RMB211.6 million in the first quarter of 2021. The decrease was mainly driven by (i) the fluctuation of the share-based compensation expenses, (ii) a decrease in salaries and welfare benefits, partially offset by an increase in depreciation and amortization expenses.

**Income from operations** was RMB979.3 million (US\$151.7 million) in the second quarter of 2021, compared with loss from operations of RMB111.9 million in the first quarter of 2021.

**Income tax expense** was RMB204.2 million (US\$31.6 million) in the second quarter of 2021, compared with RMB176.3 million in the first quarter of 2021. The increase was primarily due to an increase in taxable income.

**U.S. GAAP net income** was RMB824.3 million (US\$127.7 million) in the second quarter of 2021, compared with U.S. GAAP net loss of RMB267.0 million in the first quarter of 2021.

**Non-GAAP net income** was RMB651.8 million (US\$100.9 million) in the second quarter of 2021, representing an increase of 6.8% from RMB610.5 million in the first guarter of 2021.

**U.S. GAAP basic and diluted net income per American depositary share ("ADS")** were RMB0.595 (US\$0.092) and RMB0.591 (US\$0.092), respectively, in the second quarter of 2021, compared to U.S. GAAP basic and diluted net loss per ADS of both RMB0.174 in the first quarter of 2021.

**Non-GAAP basic and diluted net income per ADS**<sup>[2]</sup> were RMB0.470 (US\$0.073) and RMB0.467 (US\$0.072), respectively, in the second quarter of 2021, compared to non-GAAP basic and diluted net income per ADS of both RMB0.398 in the first guarter of 2021.

[2] Non-GAAP basic and diluted net income per ADS is a non-GAAP financial measure. For more information on the Company's non-GAAP financial measures, please see the section "Non-GAAP Financial Measures" and the table captioned "Unaudited Reconciliation of GAAP and Non-GAAP Results" set forth at the end of this press release.

### **Non-GAAP Financial Measures**

The Company uses Non-GAAP net income and Non-GAAP basic and diluted net income per ADS, each a non-GAAP financial measure, in evaluating its operating results and for financial and operational decision-making purposes. Non-GAAP net income represents net income excluding share-based compensation expenses. Non-GAAP basic and diluted net income per ADS is computed using Non-GAAP net income and the same number of ADSs used in U.S. GAAP basic and diluted net income/(loss) per ADS calculation.

The Company presents these non-GAAP financial measures because they are used by the management to evaluate its operating performance and formulate business plans. The Company believes that they help identify underlying trends in its business that could otherwise be distorted by the effect of certain expenses that are included in net income/(loss). The Company also believes that the use of the non-GAAP measures facilitates investors' assessment of its operating performance, as they could provide useful information about its operating results, enhances the overall understanding of its past performance and future prospects and allows for greater visibility with respect to key metrics used by the management in its financial and operational decision making.

The non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. The non-GAAP financial measures have limitations as analytical tools. They should not be considered in isolation or construed as an alternative to net income/(loss), basic and diluted net income/(loss) per ADS or any other measure of performance or as an indicator of its operating performance. Investors are encouraged to review its historical non-GAAP financial measures to the most directly comparable U.S. GAAP measures. The non-GAAP financial measures here may not be comparable to similarly titled measures presented by other companies. Other companies may calculate similarly titled measures differently, limiting their usefulness as comparative measures to our data. The Company encourages investors and others to review its financial information in its entirety and not rely on any single financial measure.

For more information on the non-GAAP financial measures, please see the table captioned "Unaudited Reconciliation of GAAP and non-GAAP Results" set forth at the end of this press release.
